October 4, 2019

Reminders:

- *October 7th: No School for Students
- *October 9th: Reading Log #3 Due
- *October 11th: Science Center Assembly

Other Important Information!

ELA

We will begin the week by wrapping up Unit 1, Week 4. As we begin Unit 1, Week 5, we will be using rereading strategies to help us better comprehend various stories, while identifying the main idea and key details. We will also be learning about suffixes and how they can help us determine the meaning of new words. As we explore the characteristics of Persuasive text, we will be thinking of our essential question: *How can starting a business help others?* In Grammar, we will continue identifying the parts of a complex sentence and begin learning about how to correct writing run-on sentences.

Math

This week in Math we will work with multiplying double-digit by double-digit numbers using arrays, four square models, partial products and the standard algorithm of multiplication.

Social Studies

This week as we wrap up lesson one, we will learn about what life was like for hunters and gatherers in the past. As these early Pennsylvanians explored, they had to stay alert in their surroundings.

Science

We will have a quiz on invertebrates on Tuesday. Use the study guides students have completed, which have also been emailed home for your convenience. We will then learn about vertebrate groups.

You will never know your limits unless you push yourself to them.
